

Completion Report for Multi-Sector Livelihood Project in Leh & Jangthang

Introduction

In 2023, the Department of Home, Central Tibetan Administration (CTA), directed our office to collaborate with The Tibet Fund to assess the needs of destitute families in the Ladakh Tibetan region. We convened leaders from various camps and Jangthang to engage with the general public, emphasizing the importance of identifying the poorest families for assistance.

Activities

At the beginning of 2024, staff from The Tibet Fund coordinated with beneficiaries selected by the community. They assessed individual needs for basic necessities and compiled a comprehensive list of required items.
